DiscoverIT Solutions
"We Discover IT Solutions For Business"

Reduce your TCO while maximizing your performance!

The pressures mount

Today, successful software development is more challenging than it has ever been. Engineering teams must content with shorter development and release cycles, increasing technology complexity and new demands for social and mobile solutions. To meet these challenges head on companies are increasingly turning to an Agile methodology to accelerate their development cycle and empower product teams to deliver greater customer value in less time.
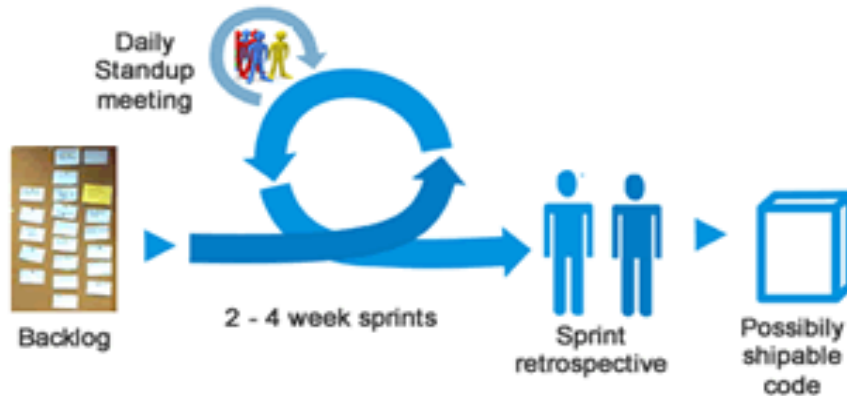

Meet the challenge

The DiscoverIT Solutions Agile adoption services are designed to address the challenges companies encounter as they migrate from an existing methodology to Agile. We work with:

1. Agile Training

    Training is the key enabler for adopting Agile. The DiscoverIT process starts with understanding your existing methodology and skill sets and then tailors a suite of training to meet your specific needs to get your team up and running quickly.

2. Agile Adoption Service

    The first few months of your initial Agile project are key to its success and ultimately to the acceptance of Agile within your organization. DiscoverIT subject matter experts can work on site providing ongoing support and mentoring to your team. Our approach is focused on risk reduction and accelerated adoption.
